IBM Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008

000-439: Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008

Practice Exam: 000-439 Exams

Exam Number/Code: 000-439

Exam Name: Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008

Questions and Answers: 102 Q&As

(IBM certifications I)

Exam : [000-439](#)

For candidates making preparation for the IBM 000-439 questions and answers, what they most desire is to easily pass the 000-439 (Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008) exam. ItCertHome 000-439 includes 102 questions and answers, which are collected and collated by experts of IBM. With our 000-439 study materials, you can successfully take IBM certification of 000-439 exam and go further on IBM career path.

Free 000-439 Demo

we provide IBM 000-439 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of 000-439 exam

ItCertHome IBM IBM certifications I 000-439 Practice Questions is developed and finished by IBM technical team , cover every field of the exam . Besides, we have verified 000-439 answers,almost 100% correct.

100% Guarantee to Pass 000-439 Exam

We promise to give you FULL REFUND if you fail the IBM certifications I 000-439 certification(IBM Certified Network Associate) with the use of our ItCertHome testing engine.

000-439 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about 000-439 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome 000-439

Once there is some change on IBM 000-439 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **IBM IBM certifications I 000-439** examination of original title complete coverage.ItCertHome **000-439 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of 000-439 Q&A are more than 96%.All you need to study the whole 000-439 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 000-439 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 000-439 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 000-439 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[IBM 000-439](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the IBM certifications I certified topic, in there, you will see all related IBM certifications I certified subject of examination.

000-439

ItCertHome professional provide IBM certifications I 000-439 the newest Q&A, completely covers 000-439 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-439 tests on Your First Try, 100% Money Back Guarantee included!

This 000-439 PDF demo do not include the questions and answers's picture:

Exam : IBM 000-439

Title : Fundamentals of Enterprise Solut.Using IBM Tivoli Strg 2008

1. The customer has a strong compliance requirement for data encryption on network and off-site locations. Which two practices should be recommended to this customer? (Choose two.)

- A. make sure all data are classified
- B. make sure that production data are properly classified
- C. propose encryption solutions according to company policies
- D. make sure that IBM Tivoli Storage Manager pools are configured for encryption
- E. use the GSS-API provided by Tivoli products and integrate with network components

Answer: BC

2. What is required to identify valid participants for an introductory meeting?

- A. organization address book, including pictures
- B. organization mailing list showing the exact locations where each employee is working
- C. organization chart showing the line relationship between the CIO and the subordinate storage group
- D. organization chart showing the lateral relationship between the CIO and the subordinate storage administrator

Answer: C

3. During the planning and inventory phase of the consulting process, which two topics are part of the document describing the customer's current storage environment (baseline)? (Choose two.)

- A. return on investment (ROI) analysis
- B. customer's storage hardware assets
- C. customer's long term business vision
- D. customer's IT processes related to storage
- E. mapping of IBM storage solutions that meet customer's needs

Answer: BD

4. Which IBM TotalStorage Productivity Center host system is limited to 500 threads?

- A. AIX

- B. Linux
- C. HP-UX
- D. Windows

Answer: D

5. Which factor can dictate customer data retention policies?

- A. federal regulations
- B. storage media type
- C. distance of off-site location
- D. amount of incremental data to be protected

Answer: A

6. A customer plans to renew their storage infrastructure to cope with performance and availability requirements stated by IT management and business drivers. Which solution should be recommended to this customer?

- A. SAN Volume Controller
- B. Bare Machine Recovery
- C. Tivoli Enterprise Console
- D. IBM Tivoli Storage Manager

Answer: A

7. Who should attend an introductory meeting of a business continuity design and implementation project?

- A. IBM Tivoli Identity Manager administrator
- B. IBM Tivoli Enterprise Portal administrator
- C. IBM Tivoli Storage Manager administrator
- D. IBM Tivoli Access Manager administrator

Answer: C

8. A business has ten servers that are critical and must be restorable at the disaster recovery site. Which three components must be considered in the disaster recovery site to implement this request? (Choose three.)

- A. SLAs
- B. availability of HBAs
- C. IP network speed at the disaster site
- D. backup and restore media infrastructure
- E. amount of incremental data on the client
- F. network speed from disaster site to primary site

Answer: ACD

9. A telecommunication company wants to ensure inability of access to sensitive information stored on disk pools after expiration or migration of data. Which security practice is a valid way for the company to fulfill this requirement?

- A. degauss disks internally and destroy them
- B. use operating system tools to remove data
- C. shred data from disk after expiration or migration
- D. use active data only policies to ensure only valid data are maintained

Answer: C

10. Which two processes should be in place for a successful data management initiative? (Choose two.)

- A. data security
- B. data replication
- C. data provisioning
- D. change management
- E. incident management

Answer: AB

11. Which three factors must be considered when implementing IBM Tivoli Storage Manager? (Choose three.)

- A. network speed
- B. number of HBAs required
- C. type of SAN disk being used
- D. change rate of the client data
- E. number of SAN switches in the infrastructure
- F. microcode level of the SAN device where the storage pools are located

Answer: ABD

12. Which information should a customer baseline document include?

- A. analysis of customer's data management maturity level
- B. analysis of all data loss exposures that the customer currently faces
- C. configuration logs showing customer data structure for applications and databases
- D. names and phone numbers of everyone that needs to be contacted during the current customer engagement

Answer: D

13. Which key business process is most necessary to understand in order to describe SLAs as they relate to storage?

- A. audit procedures
- B. hardware provisioning
- C. customer service handling
- D. maintenance and support services

Answer: B

14. What is required in order to back up a customer critical files?

- A. IBM Tivoli Storage Manager for SANs
- B. IBM TSM Hierarchical Storage Manager (HSM) on Windows
- C. IBM Tivoli Storage Manager for System Backup and Recovery
- D. Open File Support with IBM Tivoli Storage Manager Extended Edition

Answer: D

15. Which server component acts as a traffic controller by directing information and handling requests from the agent?

- A. TotalStorage Productivity Center for Data
- B. TotalStorage Productivity Center for Disk
- C. TotalStorage Productivity Center Basic Edition
- D. TotalStorage Productivity Center for Replication

Answer: A

16. A storage administrator has allocated a LUN from a DS/8000 to an AIX server. IBM TotalStorage Productivity Center indicates that the AIX server has unallocated disk space. Which process has not been completed by the UNIX administrator?

- A. define a filesystem
- B. run config manager
- C. zone the LUN to the server
- D. enable the HBA on the server

Answer: A

17. Which three items should be recorded while collecting baseline information pertaining to the customer storage environment? (Choose three.)

- A. audit/compliance
- B. disk management
- C. data management
- D. product certifications

- E. problem management
- F. hardware administration

Answer: ABC

18. What are two benefits of mapping the customer business processes to the storage environment in the baseline gathering stage? (Choose two.)

- A. identifies waste
- B. describes costs clearly
- C. provides audit-ready posture
- D. defines steps and sequences
- E. defines customer requirements

Answer: AD

19. Which two IBM software product functions are designed to map to the customer business requirements? (Choose two.)

- A. handling alerts
- B. monitoring thresholds
- C. handling documentation
- D. managing network sockets
- E. providing management reports

Answer: AB

20. What information is relevant when creating a customer's baseline documentation as input to a storage solution design?

- A. biggest risk factors
- B. IBM solution differentiators
- C. business benefits provided by the solution
- D. IT organizational structure diagram and description

Answer: D
