

2B0-100 Practice Test

Enterasys Networks Enterasys Systems Engineer (ESE) Recertification

2B0-100: Enterasys Systems Engineer (ESE) Recertification

Practice Exam: 2B0-100 Exams

Exam Number/Code: 2B0-100

Exam Name: Enterasys Systems Engineer (ESE) Recertification

Questions and Answers: 200 Q&As

(Enterasys Networks Certification)

Exam : [2B0-100](#)

For candidates making preparation for the Enterasys Networks 2B0-100 questions and answers, what they most desire is to easily pass the 2B0-100 (Enterasys Systems Engineer (ESE) Recertification) exam. ItCertHome 2B0-100 includes 200 questions and answers, which are collected and collated by experts of Enterasys Networks. With our 2B0-100 study materials, you can successfully take Enterasys Networks certification of 2B0-100 exam and go further on Enterasys Networks career path.

Free 2B0-100 Demo

we provide Enterasys Networks 2B0-100 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of 2B0-100 exam

ItCertHome Enterasys Networks Enterasys Networks Certification 2B0-100 Practice Questions is developed and finished by Enterasys Networks technical team , cover every field of the exam . Besides, we have verified 2B0-100 answers,almost 100% correct.

100% Guarantee to Pass 2B0-100 Exam

We promise to give you FULL REFUND if you fail the Enterasys Networks Certification 2B0-100 certification (Enterasys Networks Certified Network Associate) with the use of our ItCertHome testing engine.

2B0-100 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about 2B0-100 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome 2B0-100

Once there is some change on Enterasys Networks 2B0-100 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Enterasys Networks Enterasys Networks Certification 2B0-100** examination of original title complete coverage.ItCertHome **2B0-100 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of 2B0-100 Q&A are more than 96%.All you need to study the whole 2B0-100 Q&A

before you participate the certification exam, it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 2B0-100 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 2B0-100 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 2B0-100 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Enterasys Networks 2B0-100](#) Test belongs to one of the Enterasys Networks Certification certified test, if needs to obtain the Enterasys Networks Certification certificate, you also need to participate in other related test, the details you may visit the Enterasys Networks Certification certified topic, in there, you will see all related Enterasys Networks Certification certified subject of examination.

2B0-100

ItCertHome professional provide Enterasys Networks Certification 2B0-100 the newest Q&A, completely covers 2B0-100 test original topic. With our complete Enterasys Networks Certification resources, you will minimize your Enterasys Networks Certification cost and be ready to pass your 2B0-100 tests on Your First Try, 100% Money Back Guarantee included!

This 2B0-100 PDF demo do not include the questions and answers's picture:

Exam : Enterasys Networks 2B0-100

Title : Enterasys Systems Engineer (ESE) Recertification

1. Trap Support is available for Span Guard.

- A. True
- B. False

Answer: A

2. Firmware upgrade of a stack of SecureStack C2 switches involves downloading the image to the management IP address of a stack, and the image is automatically distributed to all the switches in the stack.

- A. True
- B. False

Answer: A

3. With an Advanced Distributed Architecture every switch module is its own switch, and thus a central or management-switching module is not required.

- A. True
- B. False

Answer: A

4. What is the interval that DVMRP routers send Route Report packets to adjacent DVMRP routers?

- A.30 seconds.
- B.60 seconds.
- C.120 seconds.
- D.None of the above

Answer: B

5. Which of the following is/are true about Enterasys support for 802.1D spanning tree?
- A.All Enterasys switches support the basic IEEE 802.1D Spanning Tree.
 - B.Only the Enterasys SS2000 and Matrix E5/E6/E7 support IEEE 802.1D Spanning Tree.
 - C.RSTP is the default spanning tree on those devices that also support other spanning tree methods.
 - D.Both A and C
 - E.None of the above

Answer: D

6. The ability to assign VLAN traffic to unique paths is a benefit of:
- A.802.1w Rapid Reconfiguration
 - B.802.1t Spanning Tree Maintenance
 - C.802.1s Multiple Spanning Tree
 - D.Enterasys proprietary Passive Spanning Tree

Answer: C

7. A FlexView table can be exported in which format?
- A.Bar graph
 - B.Pie chart
 - C.gif
 - D.HTML

Answer: D

8. What is the maximum number of Matrix C2 modules that can be configured in a stack?
- A.2
 - B.4
 - C.6
 - D.8

Answer: D

9. How can you differentiate between the Gold and Platinum DFE modules?
- A.The Platinum part numbers begin with 4 while the Gold begins with 7.
 - B.The only way to tell is by the color of the tab.
 - C.The Platinum part numbers begin with 6 and the Gold begins with 4.
 - D.The Platinum part number begins with 7 and the Gold begins with 4.

Answer: D

10. What must you configure on a device before it can be managed with NetSight Console?
- A.MAC address
 - B.Passwords
 - C.802.1X authentication parameters
 - D.IP address

Answer: D

11. In the Planning Tool, what is the procedure to move a DAP?
- A.Just click on the DAP, then drag and drop it to a new location.
 - B.Close the planning tool, release the DAP lock and then reinsert it.
 - C.Right click on the DAP and select the properties tab, then enter the new coordinates in the topography screen.
 - D.You can not move the DAP, you must delete it and then re-add it, making sure to specify the DAP location before you hit the "calculate and place DAPs" button.

Answer: A

12. What is the function of dip switch 8 in a DFE module?

- A. Resets the admin password to default
- B. Forced BootP
- C. Clears persistent data
- D. None of the above

Answer: A

13. What restriction, if any, is placed on aggregating ports on the Matrix E1?

- A. Only fixed ports may be aggregated.
- B. Ports in a trunk must all be attached to the same internal chip set.
- C. Only three ports can be aggregated at a time.
- D. There are no restrictions.

Answer: B

14. Which router supports OSPF redistribution of the following protocols; BGP, OSPF, OSPF-ASE, IS-IS, and Aggregate.

- A. Matrix X
- B. Matrix DFE
- C. Matrix E1
- D. SecureStack C2

Answer: A

15. What is a Mobility Domain?

- A. A logical grouping of Wireless Switches that form a seamless roaming region.
- B. A specific group of radios within a single WLAN configured to limit user movement to a specific area.
- C. The fringe zone between radio coverage areas where a WLAN user roams from one radio to another.
- D. A geographical zone of the WLAN where a set of policy ACLs is enforced.

Answer: A

16. What is the default VLAN on all Enterasys switches?

- A. 10
- B. 4095
- C. 0
- D. 1

Answer: D

17. Which Routing devices require an advance routing license in order to use OSPF?

- A. Matrix N Platinum & SecureStack C2
- B. Matrix X & Matrix E1
- C. SecureStack C2 & Matrix X
- D. Matrix E1 & SecureStack C2

Answer: A
