

## **3M0-600 Practice Test**

### **3COM Wireless Specialist Final Exam**

#### **3M0-600: Wireless Specialist Final Exam**

**Practice Exam:** 3M0-600 Exams

**Exam Number/Code:** 3M0-600

**Exam Name:** Wireless Specialist Final Exam

**Questions and Answers:** 150 Q&As

**( 3Com Certification )**

Exam : [3M0-600](#)

For candidates making preparation for the 3COM 3M0-600 questions and answers, what they most desire is to easily pass the 3M0-600 (Wireless Specialist Final Exam) exam. ItCertHome 3M0-600 includes 150 questions and answers, which are collected and collated by experts of 3COM. With our 3M0-600 study materials, you can successfully take 3COM certification of 3M0-600 exam and go further on 3COM career path.

#### **Free 3M0-600 Demo**

we provide 3COM 3M0-600 demo exam for free (in PDF format ) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

#### **ItCertHome Test tool's advantages:**

##### **High Quality and Value of 3M0-600 exam**

ItCertHome 3COM 3Com Certification 3M0-600 Practice Questions is developed and finished by 3COM technical team , cover every field of the exam . Besides, we have verified 3M0-600 answers,almost 100% correct.

##### **100% Guarantee to Pass 3M0-600 Exam**

We promise to give you FULL REFUND if you fail the 3Com Certification 3M0-600 certification(3COM Certified Network Associate) with the use of our ItCertHome testing engine.

##### **3M0-600 Self Test Mode**

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about 3M0-600 to ensure enough assurance in real testing center.

##### **Periodic Updates of ItCertHome 3M0-600**

Once there is some change on 3COM 3M0-600 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

##### **Professional and Efficient Service**

We offer 7\*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **3COM 3Com Certification 3M0-600** examination of original title complete coverage.ItCertHome **3M0-600 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

### **We promised that use ItCertHome Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of 3M0-600 Q&A are more than 96%.All you need to study the whole 3M0-600 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 3M0-600 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 3M0-600 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 3M0-600 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[3COM 3M0-600](#) Test belongs to one of the 3Com Certification certified test, if needs to obtain the 3Com Certification certificate, you also need to participate in other related test, the details you may visit the 3Com Certification certified topic, in there, you will see all related 3Com Certification certified subject of examination.

3M0-600

ItCertHome professional provide 3Com Certification 3M0-600 the newest Q&A, completely covers 3M0-600 test original topic. With our complete 3Com Certification resources, you will minimize your 3Com Certification cost and be ready to pass your 3M0-600 tests on Your First Try, 100% Money Back Guarantee included!

This 3M0-600 PDF demo do not include the questions and answers's picture:

Exam : 3COM 3M0-600

Title : 3Com Wireless Specialist Final Exam

1. To configure encryption on an access point (AP) that is part of a Wireless Distribution System (WDS), you must configure each AP separately, using a wired-Ethernet connected computer.

- A. True
- B. False

Answer: A

2. Many access points (APs) are set up with a default configuration, known as "open system" or "open system authentication," so any station can associate and connect.

- A. True
- B. False

Answer: A

3. Which two are reasons a company may choose to use a building-to-building wireless bridge versus a T1/E1 or fiber link? (Choose two.)

- A. Reliability of the connection
- B. Time to deploy and set up the connection
- C. The distances between the two buildings
- D. The initial installation costs and/or recurring monthly charges

Answer: BD

4. What is the optimal access point (AP) channel allocation configuration on a Wireless LAN (WLAN)?

- A. APs should be configured with overlapping channels
- B. APs should be configured with different non-overlapping channels
- C. It makes no difference if APs use overlapping or non-overlapping channels
- D. Allow APs to automatically perform the hunting process to determine the best channels

Answer: B

5. You have taken a new job as the network administrator. You find a 3Com Wireless LAN Access Point 8750 on a shelf in the network supply closet. What should you do when you are unable to connect a Wireless LAN Access Point 8750 because your predecessor has configured the access point (AP) with an unknown username and password?

- A. Attach your PC directly to the RJ-45 port on the AP and telnet into the AP
- B. Reset the AP configuration to factory default by pressing the reset button for at least 15 seconds
- C. Reset the AP to its default factory settings by opening the back of the AP and removing the battery for at least 30 seconds
- D. Use Windows Registry Editor to create and upload the following text to disable the AP security:

"HKEY\_USERS.DEFAULTS\Software\3Com Corporation\EAPOL\User\EapInfo"

Answer: B

6. Click the Exhibit button at the bottom of the screen.

Choose the two features supported by the 3Com Wireless LAN Managed Access Point (MAP) 2750. (Choose two.)

- A. Fit access point
- B. IEEE 802.1X Network Login and IPSec
- C. Dual-mode radio allows operation for both IEEE 802.11b/g and IEEE 802.11a
- D. Dual-mode radio allows operation for either IEEE 802.11b/g or IEEE 802.11a

Answer: AD

7. Which wireless building-to-building bridge distance-related parameter must be set to ensure each wireless bridge waits the appropriate period for a response from other wireless bridges?

- A. Basic Rate Set
- B. Broadcast Service Set Identifier (SSID)
- C. Acknowledgement Delay Timeout (ACK)
- D. Request to Send/Clear to Send (RTS/CTS)

Answer: C

8. What does the IEEE 802.11d standard specify?

- A. Defines Inter Access Point Protocol (IAPP)
- B. Defines MAC-based Quality of Service (QoS) mechanism
- C. Defines encryption using the Advanced Encryption Standard (AES)
- D. Defines the ability to fine tune Wireless LAN configuration at the Physical (PHY) Layer to comply with country-specific rules

Answer: D

9. Which two are features of a Wireless LAN (WLAN) Infrastructure Basic Service Set? (Choose two.)

- A. Also known as an Ad Hoc or Peer-to-Peer WLAN
- B. Members communicate directly with each other within the service area
- C. Created when two or more Basic Service Sets are connected together
- D. Only stations exist in the service area and no access point (AP) is used
- E. Management and control of the service area is performed by the access point (AP)

Answer: BE

10. What was a limitation of first-generation Wireless LAN (WLAN) products?

- A. Were designed to be managed individually
- B. Did not support roaming for mobile computers
- C. Did not provide authentication or encryption services
- D. Were not designed to support large number of users

Answer: A

11. Which statement is true for Wireless LAN (WLAN) data and throughput rates?

- A. Data rates drop as the distance to the access point (AP) increases

- B. Data rates drop as the distance to the access point (AP) decreases
- C. Actual data throughput on a WLAN is about 25% of the defined throughput rate
- D. Data rates on an IEEE 802.11a/g WLAN are not affected by distance from the access point (AP)

Answer: A

12. Which three are features of 3Com Dynamic Security Link? (Choose three.)

- A. Per user, per session dynamic key encryption
- B. 40-, 128- and 168-bit shared key encryption support
- C. Internal database supporting up to 1,000 user names and passwords
- D. Local and remote access point (AP) authentication and encryption support
- E. Superior wireless security for networks without a centralized authentication server

Answer: ACE

13. The 3Com 11a/b/g Wireless LAN Workgroup Bridge enables a laptop, PC or printer without built-in wireless capability to connect to a wireless LAN.

- A. True
- B. False

Answer: A

14. Which three are features supported on the OfficeConnect ADSL Wireless 11g Firewall Router and the 3Com OfficeConnect Wireless 11g Cable/DSL Router? (Choose three.)

- A. VPN termination
- B. Stateful packet inspection
- C. Power over Ethernet (PoE)
- D. Four 10/100 Ethernet LAN ports
- E. 256-bit Wi-Fi Protected Access (WPA) encryption
- F. 40/64-bit and 128-bit Wired Equivalent Privacy (WEP) encryption

Answer: DEF

15. Which describes the 3Com Receiver Signal Strength Indicator (RSSI) access point (AP) implementation?

- A. AP displays its own signal strength as a value from 0 to 255
- B. AP displays neighbor AP's signal strength as a percentage value
- C. AP displays its own signal strength and quality as a percentage value
- D. AP displays neighbor AP's signal strength and quality as a value from 0 to 255

Answer: B

16. Which antenna type is typically used indoors to provide large coverage areas within a building?

- A. Dipole antenna
- B. Omnipole antenna
- C. Yagi or semi-directional antenna
- D. Patch panel or parabolic antenna

Answer: B

17. Wireless LAN (WLAN) IEEE 8011a Turbo Mode bonds two channels together for up to 108 Mbps data rates.

- A. True
- B. False

Answer: A

18. Which Wireless Infrastructure Device Manager (WIDM) command displays the generic settings of a discovered 3Com Access Point (AP), i.e., device name, type, IP address, MAC address?

- A. Show
- B. Display
- C. Present

D. Properties

Answer: D

19. You have launched the 3Com Wireless Infrastructure Device Manager (WIDM) software to configure your Wireless LAN Access Point 8750. When you see the access point (AP) on your PC screen, it has an exclamation point located to the left of the AP. What is the significance of the exclamation point?

- A. The AP is still booting up
- B. The AP has had a device failure and is non-operational
- C. The AP is configured as a Managed Access Point (MAP)
- D. The AP does not have an IP address assigned or is in a different subnet from your PC

Answer: D

20. Which procedure allows the network administrator to set up a Wireless LAN Access Point (AP) 8750 to support RADIUS Authentication?

- A. Use the 3Com Web Configuration Management System to login to the AP, click on the "RADIUS" hyperlink and configure the RADIUS settings
- B. Use the Wireless Infrastructure Device Manager (WIDM) to choose the AP from the list, click on the "RADIUS" hyperlink and configure the RADIUS settings
- C. Use a web browser to navigate to the RADIUS Authentication server, click on "Configure new device," choose the AP from the list and configure the RADIUS settings
- D. Use the 3Com Web Configuration Management System to login to the 3Com Wireless LAN Controller/Switch, choose the AP from the list and configure the RADIUS settings

Answer: A
