Sybase, Inc ase 12.0 server administration associate

510-014: ase 12.0 server administration associate

Practice Exam: 510-014 Exams

Exam Number/Code: 510-014

Exam Name: ase 12.0 server administration associate

Questions and Answers: 96 Q&As

(Sybase,Inc Certification)

Exam : [510-014](#)

For candidates making preparation for the Sybase, Inc 510-014 questions and answers, what they most desire is to easily pass the 510-014 (ase 12.0 server administration associate) exam. ItCertHome 510-014 includes 96 questions and answers, which are collected and collated by experts of Sybase, Inc. With our 510-014 study materials, you can successfully take Sybase, Inc certification of 510-014 exam and go further on Sybase, Inc career path.

Free 510-014 Demo

we provide Sybase, Inc 510-014 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of 510-014 exam

ItCertHome Sybase, Inc Sybase,Inc Certification 510-014 Practice Questions is developed and finished by Sybase, Inc technical team , cover every field of the exam . Besides, we have verified 510-014 answers,almost 100% correct.

100% Guarantee to Pass 510-014 Exam

We promise to give you FULL REFUND if you fail the Sybase,Inc Certification 510-014 certification(Sybase, Inc Certified Network Associate) with the use of our ItCertHome testing engine.

510-014 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about 510-014 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome 510-014

Once there is some change on Sybase, Inc 510-014 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Sybase, Inc Sybase,Inc Certification 510-014** examination of original title complete coverage.ItCertHome **510-014 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of 510-014 Q&A are more than 96%.All you need to study the whole 510-014 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 510-014 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 510-014 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 510-014 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Sybase, Inc 510-014](#) Test belongs to one of the Sybase, Inc Certification certified test, if needs to obtain the Sybase, Inc Certification certificate, you also need to participate in other related test, the details you may visit the Sybase, Inc Certification certified topic, in there, you will see all related Sybase, Inc Certification certified subject of examination.

510-014

ItCertHome professional provide Sybase, Inc Certification 510-014 the newest Q&A, completely covers 510-014 test original topic. With our complete Sybase, Inc Certification resources, you will minimize your Sybase, Inc Certification cost and be ready to pass your 510-014 tests on Your First Try, 100% Money Back Guarantee included!

This 510-014 PDF demo do not include the questions and answers's picture:

Exam : Sybase 510-014

Title : Ase 12.0 Server Administration Associate

1. ASE has the following locking schemes: (Choose 3)

- A. allpages - index page(s) and data page(s) are locked for the duration of the modification transaction
- B. datapages - locks just data page(s) for the duration of the modification transaction
- C. datapages - locks just data page(s) and index row(s) for the duration of the modification transaction
- D. datarows - locks only data row(s) and index row(s) for the duration of the modification transaction
- E. datarows - locks only data row(s) for the duration of the modification transaction

Answer: ABE

2. To change the locking scheme for an existing table you must:

- A. unload target database using bcp out, use alter database, load the data back using bcp in
- B. use the alter table command
- C. change the server configuration for locking schemes
- D. none of the above

Answer: B

3. The database sybsystemdb provides support for:

- A. advanced security
- B. high availability failover
- C. java classes and stored procedures
- D. distributed transaction management
- E. system stored procedures

Answer: D

4. Given:

Create table A (a int, b int)

This table has 10,000 rows

Which of the following is the most log-intensive activity?

- A. insert A values (5, 7)
- B. truncate table A
- C. delete A
- D. select * into B from A
- E. The initial 'create table' command

Answer: C

5. When are data pages written from memory to disk?

- A. when a user issues a begin transtatement
- B. when a user issues a save transtatement
- C. when a user issues a commit transtatement
- D. when a checkpoint occurs
- E. when the user ends the client connection

Answer: D

6. To perform a routine backup of the transaction log for a critical production database called prod_db use

- A. dump transaction prod_db
- B. dump transaction prod_db with no_truncate
- C. dump transaction prod_db with truncate_only
- D. dump transaction prod_db with no_log
- E. Set the database option 'trunc log on chkpt' to true so that the transaction log will automatically be backed up

Answer: A

7. Table A has the following characteristics: Datarows locking No indexes 5000 rows 400 data pages no partitions
Table B has the following characteristics: Allpages locking No indexes 5000 rows 400 data pages no partitions Using default session settings, which of the following queries will run successfully? (Choose 3)

- A. select * from A at isolation 1
- B. select * from B at isolation 0
- C. select * from B at isolation 1
- D. select * from A at isolation 0

Answer: ACD

8. Cursors outside a stored procedure are optimized and compiled when:

- A. the program starts
- B. they are declared
- C. they are opened
- D. the first row is fetched

Answer: C

9. Which databases are required for a properly functioning ASE?

- A. master, model, tempdb, sybssystemprocs, sybssystemdb
- B. master, model, tempdb, sybssystemprocs, sybsecurity
- C. master, model, tempdb, sybssystemdb, sybsecurity, dbccdb
- D. master, model, tempdb, dbccdb, sybssystemprocs

Answer: A

10. Which system database is used to store intermediate results from queries?

- A. master
- B. model
- C. tempdb
- D. sybssystemprocs

Answer: C

11. After issuing the dbcc engine(offline) command, if that engine tasks cannot be migrated to another engine within approximately 5 minutes, then:

- A. The tasks are killed.
- B. The command is aborted.
- C. Only an error message is returned.
- D. The tasks are put into a state of recv sleep.

Answer: A

12. What is the default user-defined ole behavior at login time?

- A. All the user-defined roles are OFF.
- B. All the user-defined roles are ON.
- C. Only user-defined roles with password are ON.
- D. Only user-defined roles without password are ON.

Answer: A

13. A manual checkpoint issued in a user database:

- A. Writes a checkpoint record to each user log cache.
- B. Flushes the tempdb database.
- C. Writes dirty log and dirty data pages of the current database to disk.
- D. Commits all current transactions.

Answer: C

14. When the server has an additional connection attempt beyond what you are licensed for, what action does the license monitor take?

- A. the connection hangs until someone else disconnects
- B. ASE sends an error to the user notifying them of the license restriction, and asks them to try later
- C. ASE executes an extended stored procedure that pages the local SYBASE sales rep, but allows the connection attempt to succeed
- D. ASE locks the violating login from using the server until an SSO unlocks this violating login
- E. none of the above

Answer: E

15. Which three segments are created when a database is created? (Choose 3)

- A. system
- B. logsegment
- C. dbdevice
- D. default

Answer: ABD

16. Given the following command: create database test

Which master database table will be affected by this command?

- A. sysobjects
- B. syscomments
- C. sysindexes
- D. sysdatabases

Answer: D

17. Which of the following can NOT be done with segments to improve performance?

- A. You can place heavily used objects on physical disks dedicated to those objects.
- B. You can split large tables across several disks.
- C. You can put a heavily used table on one disk and its nonclustered indexes on a separate disk.
- D. You can put a heavily used table on one disk and its clustered index on a separate disk.

Answer: D

18. The minimum size of a named cache is

- A. 512 Kb
- B. 1024 Kb
- C. 5.0 Mb
- D. 10 extents
- E. There is no enforced minimum size

Answer: A

19. The premium features in ASE 12.0 consist of:

- A. Java in the database, High Availability, Distributed Transaction Management, Advanced Security Mechanisms
- B. Java in the database, High Availability, Distributed Transaction Management, Server to Server Communications
- C. Distributed Transaction Management, Advanced Security Mechanisms, Server to Server Communications
- D. High Availability, Distributed Transaction Management, Advanced Security Mechanisms, Homogeneous Component Integration Services

Answer: A

20. Which databases are required for a properly functioning ASE 12.0?

- A. master, model, tempdb, sybssystemprocs, sybssystemdb
- B. master, model, tempdb, sybssystemprocs, sybsecurity
- C. master, model, tempdb, sybssystemdb, sybsecurity, dbccdb
- D. master, model, tempdb, dbccdb, sybssystemprocs

Answer: A
