

920-805 Practice Test

Nortel Nortel Data Networking Technology

920-805: Nortel Data Networking Technology

Practice Exam: 920-805 Exams

Exam Number/Code: 920-805

Exam Name: Nortel Data Networking Technology

Questions and Answers: 63 Q&As

(Other Nortel Certification)

Exam : [920-805](#)

For candidates making preparation for the Nortel 920-805 questions and answers, what they most desire is to easily pass the 920-805 (Nortel Data Networking Technology) exam. ItCertHome 920-805 includes 63 questions and answers, which are collected and collated by experts of Nortel. With our 920-805 study materials, you can successfully take Nortel certification of 920-805 exam and go further on Nortel career path.

Free 920-805 Demo

we provide Nortel 920-805 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of 920-805 exam

ItCertHome Nortel Other Nortel Certification 920-805 Practice Questions is developed and finished by Nortel technical team , cover every field of the exam . Besides, we have verified 920-805 answers,almost 100% correct.

100% Guarantee to Pass 920-805 Exam

We promise to give you FULL REFUND if you fail the Other Nortel Certification 920-805 certification(Nortel Certified Network Associate) with the use of our ItCertHome testing engine.

920-805 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about 920-805 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome 920-805

Once there is some change on Nortel 920-805 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Nortel Other Nortel Certification 920-805** examination of original title complete coverage.ItCertHome **920-805 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of 920-805 Q&A are more than 96%.All you need to study the whole 920-805 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our 920-805 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of 920-805 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the 920-805 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Nortel 920-805](#) Test belongs to one of the Other Nortel Certification certified test, if needs to obtain the Other Nortel Certification certificate, you also need to participate in other related test, the details you may visit the Other Nortel Certification certified topic, in there, you will see all related Other Nortel Certification certified subject of examination.

920-805

ItCertHome professional provide Other Nortel Certification 920-805 the newest Q&A, completely covers 920-805 test original topic. With our complete Other Nortel Certification resources, you will minimize your Other Nortel Certification cost and be ready to pass your 920-805 tests on Your First Try, 100% Money Back Guarantee included!

This 920-805 PDF demo do not include the questions and answers's picture:

Exam : Nortel 920-805

Title : Nortel Data Networking Technology

1. Which order is correct for these components in the Ethernet frame?

- A. destination MAC address, source MAC address, length/type field, data, FCS
- B. destination MAC address, source MAC address, data, length/type field, FCS
- C. source MAC address, destination MAC address, length/type field, data, FCS
- D. source MAC address, destination MAC address, data, length/type field, FCS

Answer: A

2. A corporation has decided to save money and buy remanufactured IP telephones. They purchased Phase 1 (One) IP telephones that do not support Power-over-Ethernet (PoE). The Ethernet Switches they purchased do supply PoE per the IEEE 802.3af specifications.

Which statement regarding the Phase 1 IP telephones is true?

- A. They must be plugged into AC power outlets to function.
- B. They can use a power splitter to receive both power and data from the Ethernet Switch.
- C. They can use a power splitter to receive both power and data from the Ethernet Switch, but must also be attached to an AC outlet to boot and acquire an IP address.
- D. They must be plugged into AC power outlets to boot and acquire an IP address. After the telephone is operating, it can operate off the Ethernet Switch only.

Answer: B

3. Which function do Route policies on the Ethernet Routing Switch (ERS) perform?

- A. Route policies can flush and clear the IP routing table.
- B. OSPF redistribute function is used to propagate OSPF routes within a single area.
- C. RIP announce policies determine how RIP learned routes are represented in the routing table.
- D. BGP redistribute function may be used to advertise OSPF learned routes using BGP.

Answer: D

4. An Ethernet Routing Switch is building the routing table using default route precedence values. As it considers

routes from various sources, which set of criteria does the routing table use to build its information?

- A. All sources are considered in a Weighted Round Robin order.
- B. RIP routes are considered at a higher precedence value than OSPF.
- C. OSPF routes have a lower precedence value than Static routes.
- D. BGP routes are always listed first and most important in the IP Routing Table.

Answer: B

5. Which statement about broadcast domains and collision domains is false?

- A. When a connection is Ethernet full-duplex, the collision domain only contains two devices.
- B. When a connection is Ethernet full-duplex, the broadcast domain only contains two devices.
- C. When a hub is used to connect devices, all ports are in the same collision domain but not in the same broadcast domain.
- D. When a switch with multiple VLANs is used to connect devices, all ports are in the same broadcast domain.

Answer: B

6. You are designing a large network and are using Open Shortest Path First (OSPF) for its efficiency with convergence times and its amount of traffic control. Which statement describes how OSPF accomplishes this?

- A. The metric is dynamic for each link.
- B. The metric is independent of the link speed.
- C. The metric reflects the link speed.
- D. The metric is the same regardless of link speed.

Answer: C

7. You are configuring a static route on an Ethernet Routing Switch (ERS). Which parameter must you specify? A.an IP address for device management purposes B.an interface IP address in the routing table for loop back C.an interface IP address of the next-hop router as a destination in the routing table D.an IP address for a network to be listed in the routing table by the network manager You are configuring a static route on an Ethernet Routing Switch (ERS). Which parameter must you specify?

- A. an IP address for device management purposes
- B. an interface IP address in the routing table for loop back
- C. an interface IP address of the next-hop router as a destination in the routing table
- D. an IP address for a network to be listed in the routing table by the network manager

Answer: D

8. A manufacturing company is building a new plant. The equipment in the plant has been known to cause interference with the network at other sites and they want to be sure that they choose a media that is resistant to electrical interference. Which type of cable should they use?

- A. thick coaxial cable
- B. fiber optic cable
- C. unshielded twisted pair
- D. plenum twisted pair

Answer: B

9. Equal Cost MultiPath (ECMP) provides the ability to load-balance Layer 3 links and also to provide redundancy. When ECMP is enabled, which set of criteria initiates its use?

- A. OSPF and RIP have no overlapping network advertisements.
- B. OSPF or RIP have learned duplicate routes with the same cost or metric.
- C. OSPF and RIP have identical network advertisements with the same cost.
- D. OSPF and RIP are used in parallel with network advertisements with different costs.

Answer: B

10. A department was moved from one floor to another. When the department was on the old floor, the users connected through a mixture of 10 Mb hubs and 10/100 Mb switches. When the department was moved all the hubs

were replaced by 10/100 Mb switches.

Two of the users are reporting that the network is much slower on the new floor even though the hubs were replaced. You discover that the switch ports these users connect to were used to connect to the hubs and are manually configured for 10Mb half-duplex. The PCs were connected to the switch and were manually configured for 100 Mb full-duplex.

What could have been done to avoid this issue?

- A. Auto-negotiation only needed to be enabled on the switch.
- B. Auto-negotiation should have been enabled on the switch ports and on the PCs.
- C. Auto-sensing only needed to be enabled on the switch.
- D. Auto-sensing should have been enabled on the switch ports and on the PCs.

Answer: B
