Free CP0-112 Demo

we provide COGNOS CP0-112 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of CP0-112 exam

ItCertHome COGNOS COGNOS Certification CP0-112 Practice Questions is developed and finished by COGNOS technical team , cover every field of the exam . Besides, we have verified CP0-112 answers,almost 100% correct.

100% Guarantee to Pass CP0-112 Exam

We promise to give you FULL REFUND if you fail the COGNOS Certification CP0-112 certification(COGNOS Certified Network Associate) with the use of our ItCertHome testing engine.

CP0-112 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about CP0-112 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome CP0-112

Once there is some change on COGNOS CP0-112 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **COGNOS COGNOS Certification CP0-112** examination of original title complete coverage.ItCertHome **CP0-112 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of CP0-112 Q&A are more than 96%.All you need to study the whole CP0-112 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our CP0-112 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of CP0-112 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the CP0-112 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[COGNOS CP0-112](#) Test belongs to one of the COGNOS Certification certified test, if needs to obtain the COGNOS Certification certificate, you also need to participate in other related test, the details you may visit the COGNOS Certification certified topic, in there, you will see all related COGNOS Certification certified subject of examination.

CP0-112

ItCertHome professional provide COGNOS Certification CP0-112 the newest Q&A, completely covers CP0-112 test original topic. With our complete COGNOS Certification resources, you will minimize your COGNOS Certification cost and be ready to pass your CP0-112 tests on Your First Try, 100% Money Back Guarantee included!

This CP0-112 PDF demo do not include the questions and answers's picture:

Exam : Cognos CP0-112

Title : Congons 8 Planning Application Consultant

1. Why does the order of D-Lists matter when creating a D-Cube?

- A. It is difficult to restructure the D-Cube if the D-Lists are out of order
- B. The order determines which D-Lists appear on pages, rows, and columns
- C. It is easier to create D-Links if D-Lists are in the correct order
- D. Calculations may not work properly if the D-Lists are out of order

Answer: D

2. In Analyst, according to best practices, which object would most likely be found in the common library?

- A. A placeholder D-List that will be used as an e.List
- B. A timescale D-List containing months of the year
- C. A D-Link that imports data from an ODBC data source
- D. A D-Link that transfers data from one model to another

Answer: B

3. According to proven practice naming conventions, which number should be given to a D-List that contains complex calculations?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: A

4. Users of the Contributor Web grid want to be able to transfer their current data to an Excel file without having to leave the Web grid. How can an administrator enable this functionality in a future session?

- A. Configure the Print to Excel extension.
- B. Publish the data to Excel from the Contributor Administration Console.
- C. Configure the Export for Excel extension.

D. Install the Contributor Add-in for Excel on the Contributor Administration server.

Answer: C

5. When publishing data that will be reported on, why is it important for an administrator to carefully select the dimension for publish?

- A. By selecting an appropriate dimension for publish, the administrator may not have to run Go to Production.
- B. The dimension for publish is the D-List whose items become columns in the fact table.
- C. The dimension for publish is the D-List whose items become rows in the fact table.
- D. If the selected dimension for publish contains calculations it will not successfully publish.

Answer: B

6. In the Contributor Administration Console, the Generate Framework Manager model administration extension creates a Framework Manager model from what type of data source?

- A. A view only published data source
- B. A table only published data source
- C. A Contributor application data source
- D. An Analyst application data source

Answer: B

7. A modeler wants to create a D-List containing all products sold by the company. The products are listed in a database table. What import method would the modeler use to create the products D-List?

- A. Import from Another D-List
- B. Import from ASCII-files
- C. Import from Mapped ASCII-files
- D. Import from ODBC

Answer: D

8. When a translator creates a translation there are two parts. The first part includes information from the underlying Analyst model, such as D-Cube names. What does the second part consist of?

- A. Bitmap fonts (such as those for non-Latin character sets)
- B. Code pages for non-standard keyboards
- C. Generic strings for Contributor components (such as button names)
- D. System locales that are specific to the Contributor application

Answer: C

9. An administrator wants to automate the process of updating a Contributor model to reflect changes made in Analyst. To perform this automation the administrator must create a macro. Which step must the administrator add to the macro?

- A. Import
- B. Synchronize
- C. Enable Job Processing
- D. Add Monitored Job Object

Answer: B

10. Which is true when translating a Contributor application into another language?

- A. Translations are created in the Translations screen of the Contributor Web site.
- B. If a translation has been modified the administrator must run Go to Production for the change to take effect.
- C. After an administrator has assigned a translation to a user class that translation can be safely deleted.
- D. Translations are created in the production version of a Contributor application.

Answer: B

11. Which is typically the correct order for selecting D-Lists when creating a D-Cube?

- A. Months, Products, Profit & Loss, Versions, Regions

- B. Profit & Loss, Regions, Products, Months, Versions
- C. Regions, Months, Versions, Profit & Loss, Products
- D. Versions, Regions, Months, Products, Profit & Loss

Answer: B

12. In Analyst, the Sales Plan D-Cube opens with Regions on rows and Products on pages. What can the modeler do so Products appears on rows and Regions appears on pages every time the D-Cube is opened?

- A. Reorient the D-Cube as desired and then apply the Hold command
- B. Restructure the D-Cube so Products appears before Regions
- C. The modeler must manually reorient the D-Cube each time
- D. Create a saved selection for the D-Cube

Answer: D

13. An Analyst modeler wants to populate a D-List with an item that includes both the general ledger account number and description. According to Cognos recommendations, where is the best place to perform this concatenation?

- A. Edit the original text file from the general ledger system.
- B. In Framework Manager by creating a specific query item.
- C. In the D-List after the import and manually updating the items.
- D. In a D-Link using Matched Descriptions for source to target allocation.

Answer: B

14. What is the fastest way for a modeler to create a weekly timescale D-List?

- A. Create a normal timescale
- B. Create a custom timescale
- C. Create a standard D-List and save it as a Type 4 D-List
- D. Create a timescale with a switchover date of seven days

Answer: B

15. With which is the Get Data extension used?

- A. Contributor to Analyst D-Links
- B. Local Links
- C. Administration Links
- D. Contributor to Contributor D-Links

Answer: B

16. Another modeler has sent a library containing a model for review. When an attempt is made to connect to it, an error message is received because a library with the same number already exists. What can be done to resolve this problem?

- A. Assign a new number when adding the library to Analyst.
- B. Delete the LIBACCES.TAB file in Windows so Analyst will assign a new number.
- C. Remove the reference to the existing library and add it back later.
- D. Change the library number of the existing library.

Answer: C

17. If a D-List item name is very long, it will result in a very wide column if that dimension of the D-Cube is placed on columns in Analyst. Which character can the modeler include in the D-List item to cause a line break so the column heading displays on two or more lines?

- A. , (comma)
- B. - (hyphen)
- C. | (pipe)
- D. ; (semi-colon)

Answer: C

18. Which Cognos 8 role is needed to ensure that only the required users, groups, and role have access to execute or schedule Contributor macros that are published to Cognos Connection?

- A. Planning Rights Administrators
- B. Planning Contributor Users
- C. Directory Administrators
- D. Server Administrators

Answer: A

19. What will happen if a user clicks the Transpose button on the toolbar when a D-Cube is open in Analyst?

- A. The D-List on rows is exchanged with the D-List on columns
- B. The D-List on rows is exchanged with the first D-List on pages
- C. The D-List on columns is exchanged with the first D-List on pages
- D. All D-Lists are reoriented to appear as they did when first opened

Answer: A

20. Which type of D-List is used as an e.List in Contributor?

- A. Versions
- B. Hierarchical
- C. Timescale
- D. Calculations

Answer: B
