

GB0-283English Practice Test

H3C Constructing Enterprise-level Routing Networks

GB0-283English: Constructing Enterprise-level Routing Networks

Practice Exam: GB0-283English Exams

Exam Number/Code: GB0-283English

Exam Name: Constructing Enterprise-level Routing Networks

Questions and Answers: 300 Q&As

(HCSE)

Exam : [GB0-283English](#)

For candidates making preparation for the H3C GB0-283English questions and answers, what they most desire is to easily pass the GB0-283English (Constructing Enterprise-level Routing Networks) exam. ItCertHome GB0-283English includes 300 questions and answers, which are collected and collated by experts of H3C. With our GB0-283English study materials, you can successfully take H3C certification of GB0-283English exam and go further on H3C career path.

Free GB0-283English Demo

we provide H3C GB0-283English demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of GB0-283English exam

ItCertHome H3C HCSE GB0-283English Practice Questions is developed and finished by H3C technical team , cover every field of the exam . Besides, we have verified GB0-283English answers,almost 100% correct.

100% Guarantee to Pass GB0-283English Exam

We promise to give you FULL REFUND if you fail the HCSE GB0-283English certification(H3C Certified Network Associate) with the use of our ItCertHome testing engine.

GB0-283English Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about GB0-283English to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome GB0-283English

Once there is some change on H3C GB0-283English exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **H3C HCSE GB0-283English** examination of original title complete coverage.ItCertHome **GB0-283English Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of GB0-283English Q&A are more than 96%.All you need to study the whole GB0-283English Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our GB0-283English Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of GB0-283English Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the GB0-283English Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[H3C GB0-283English](#) Test belongs to one of the HCSE certified test, if needs to obtain the HCSE certificate, you also need to participate in other related test, the details you may visit the HCSE certified topic, in there, you will see all related HCSE certified subject of examination.

GB0-283English

ItCertHome professional provide HCSE GB0-283English the newest Q&A, completely covers GB0-283English test original topic. With our complete HCSE resources, you will minimize your HCSE cost and be ready to pass your GB0-283English tests on Your First Try, 100% Money Back Guarantee included!

This GB0-283English PDF demo do not include the questions and answers's picture:

Exam : HuaWei GB0-283English

Title : Constructing Enterprise-level Routing Networks

1. The multicast address used by OSPF is ().

- A. 224.0.0.5
- B. 224.0.0.6
- C. 224.0.0.9
- D. 224.0.0.10

Answer: AB

2. The ASBR imports four external routes, 192.168.0.0/24, 192.168.1.0/24, 192.168.2.0/24 and 192.168.0/24. These routes are aggregated to one route 192.168.0.0/22 by the ABR. Which routes will the ABR redistribute to the other areas? ()

- A. One aggregation route
- B. The four original routes
- C. One aggregation route and the four original routes
- D. None

Answer: B

3. The default preference of OSPF route in the H3C router is ().

- A. 5
- B. 10
- C. 15
- D. 20

Answer: B

4. Which of the following descriptions about OSPF is correct? ()

- A. Data is sent by means of multicast.
- B. On receipt of a route update, a router immediately advertises its routing table to its neighbors.
- C. Routing loop can be avoided by poison reverse.

D. Support equal-cost multipath .

Answer: D

5. Which of the following descriptions about route import is/are correct? ()

A. A routing protocol can import the routes discovered by other routing protocols to enrich its routing information.

B. While importing routes from a routing protocol to another, we can define a route-policy to filter out the unexpected routes.

C. In the process of route importing, it is necessary to specify a metric for the imported route if the target routing protocol cannot directly use the metric of the source routing protocol.

D. Bi-directional importing indicates that two routing protocols import the routes from each other. It may cause routing loop.

Answer: ABCD

6. The BGP mandatory attributes include ().

A. Origin

B. AS-Path

C. Next-hop

D. MED

E. Local-preference

F. Community

Answer: ABC

7. A BGP router receives a new route from its EBGP peer, which of the following descriptions is correct? ()

A. The router will immediately send the route to its BGP peers.

B. The router will look up this route in its routing table. If the route is not recorded in the routing table, it will send the route to its BGP peers.

C. The router will check the sent routes information. If it never sends such a route, it will send the route to its BGP peers.

D. The router will check the sent routes information. If it has sent such a route, it will not send the route to its BGP peers.

Answer: C

8. Which of the following descriptions about BGP route aggregation is/are correct? ()

A. Route aggregation is to aggregate routes of all segments into one or more aggregation routes so as to reduce the size of routing table.

B. If the keyword detail-suppressed is added to the BGP summary command, only the aggregation routes are advertised.

C. BGP route aggregation takes effect on the route imported through the network command only.

D. BGP route aggregation takes effect on the route imported through the import command only.

Answer: AB

9. Which of the following descriptions about the IPSec Security Association (SA) is/are correct? ()

A. The data security service provided by IPSec is realized through SAs.

B. One SA is a unidirectional logical connection between two IPSec peers.

C. The inbound data flow and outbound data flow are respectively processed by the inbound SA and outbound SA.

D. SAs can be set up by the means of manual configuration or automatic negotiation.

Answer: ABCD

10. What is the meaning of the BGP command aggregate 10.110.0.0 255.255.0.0 suppress-policy test ? ()

A. Advertise the aggregation route only

B. Advertise the aggregation route and all the aggregated routes

C. Advertise the aggregation route and some aggregated routes that meet the filtering conditions

D. Advertise the aggregated routes only,

Answer: C

11. As described in the OSPF protocol, there must be an Area 0 in the network running OSPF.

- A. True
- B. False

Answer: B

12. Which of the following descriptions about queue is correct? ()

- A. WFQ discarding mechanism is Tail Drop on each queue, the same as CQ.
- B. WFQ classifies data flow by using ACL.
- C. CBWFQ is an improvement of WFQ using the same basic scheduling as WFQ.
- D. LLQ will first check the low-latency queue and take packets from the queue. Only when there is no packet in the low-delay queue, it will take the packets from other queues. In addition, it uses other mechanisms to avoid starving to death of the queues.

Answer: D

13. CAR is realized at the IP layer so that it can only limit the traffic of IP packets. Compared with CAR, LR can limit all the traffic passing through the physical interface.

- A. True
- B. False

Answer: A

14. Which of the following descriptions about route aggregation in OSPF is/are wrong? ()

- A. The ABR can automatically summarize routes without manual configuration.
- B. Aggregation can be made only on the ABR.
- C. The router serving as the ABR and the ASBR concurrently cannot summarize routes.
- D. The ASBR can summarize all external routes.

Answer: ABCD

15. When a BGP Speaker advertises the imported IGP routes to the IBGP neighbor, the AS-Path value is the local AS number.

- A. True
- B. False

Answer: B

16. As shown in the figure, Area 1 is an NSSA area and RouterD is the ABR of the area. The configuration on RouterD is as follows:

```
ospf 1
area 0.0.0.1
network 10.45.0.0 0.0.0.255
nssa default-route-advertise
#
area 0.0.0.0
network 4.4.4.4 0.0.0.0
network 10.34.0.0 0.0.0.255
```

Which of the following descriptions about the above network diagram and configuration is correct? ()

- A. RouterD redistributes a Type 7 LSA for a default route in Area 1. RouterE and RouterF can receive this LSA.
- B. RouterD redistributes a Type 5 LSA for a default route in Area 1. RouterE and RouterF can receive this LSA.
- C. RouterC can receive a Type 5 LSA for a default route redistributed by RouterD.
- D. None of the above

Answer: A

17. Compared with IPv4, the IPv6 address is extended to ().

- A. 128 bits
 - B. 164 bits
 - C. 64 bits
 - D. 256 bits
- Answer: A

18. OSPF is based on the () algorithm.

- A. DV
- B. SPF
- C. HASH
- D. 3DES

Answer: B

19. Which of the following descriptions about QoS at the access, convergence and core layers is/are correct? ()

- A. QoS is implemented identically in the access, convergence and core layers.
- B. Packets are classified and marked in the access layer.
- C. No QoS mechanism should be configured in the access layer.
- D. Usually, the queuing mechanism (such as CBQ) and the congestion avoidance mechanism (such as WRED) should be used in the convergence layer.

Answer: BD

20. Which of the following descriptions about OSPF STUB area is wrong? ()

- A. A backbone area cannot be configured as STUB area and a virtual link cannot pass through a STUB area.
- B. It is unnecessary to configure this attribute on all routers in a STUB area.
- C. There is no ASBR in a STUB area.
- D. After an area is configured as STUB area, the Type 3 LSA of other areas can be propagated in this area.

Answer: B
