

HH0-220 Practice Test

Hitachi HDS Certified Implmenter-Modular

HH0-220: HDS Certified Implmenter-Modular

Practice Exam: HH0-220 Exams

Exam Number/Code: HH0-220

Exam Name: HDS Certified Implmenter-Modular

Questions and Answers: 76 Q&As

(Hitachi Data Systems)

Exam : [HH0-220](#)

For candidates making preparation for the Hitachi HH0-220 questions and answers, what they most desire is to easily pass the HH0-220 (HDS Certified Implmenter-Modular) exam. ItCertHome HH0-220 includes 76 questions and answers, which are collected and collated by experts of Hitachi. With our HH0-220 study materials, you can successfully take Hitachi certification of HH0-220 exam and go further on Hitachi career path.

Free HH0-220 Demo

we provide Hitachi HH0-220 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of HH0-220 exam

ItCertHome Hitachi Hitachi Data Systems HH0-220 Practice Questions is developed and finished by Hitachi technical team , cover every field of the exam . Besides, we have verified HH0-220 answers,almost 100% correct.

100% Guarantee to Pass HH0-220 Exam

We promise to give you FULL REFUND if you fail the Hitachi Data Systems HH0-220 certification(Hitachi Certified Network Associate) with the use of our ItCertHome testing engine.

HH0-220 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about HH0-220 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome HH0-220

Once there is some change on Hitachi HH0-220 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Hitachi Hitachi Data Systems HH0-220** examination of original title complete coverage.ItCertHome **HH0-220 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of HH0-220 Q&A are more than 96%.All you need to study the whole HH0-220 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our HH0-220 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of HH0-220 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the HH0-220 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

Hitachi HH0-220 Test belongs to one of the Hitachi Data Systems certified test, if needs to obtain the Hitachi Data Systems certificate, you also need to participate in other related test, the details you may visit the Hitachi Data Systems certified topic, in there, you will see all related Hitachi Data Systems certified subject of examination.

HH0-220

ItCertHome professional provide Hitachi Data Systems HH0-220 the newest Q&A, completely covers HH0-220 test original topic. With our complete Hitachi Data Systems resources, you will minimize your Hitachi Data Systems cost and be ready to pass your HH0-220 tests on Your First Try, 100% Money Back Guarantee included!

This HH0-220 PDF demo do not include the questions and answers's picture:

Exam : Hitachi HH0-220

Title : HDS Certified Implimenter-Modular

1. What are two ways to ensure a secure Fabric? (Choose two.)

A.SNMP

B.zoning

C.LUN Security

D.Brocade Fabric Manager

Answer: BC

2. Which two licenses allocate cache in an Hitachi TagmaStore AMS storage system when they are installed even if they are not enabled? (Choose two.)

A.TrueCopy

B.Shadow Image

C.Copy-on-Write SnapShot

D.Cache Residency Manager

Answer: CD

3. An Authorized Service Provider (ASP) partner has downloaded the System Assurance Registration Documentation (SARD) from the Hitachi Data Systems PartnerXchange Web site to prepare for the installation of an Hitachi TagmaStore AMS200.

Which document is relevant for the partner to use as part of the SARD process?

A.the SARD Excel worksheet

B.the Warranty Accreditation form

C.the Service Acceptance Agreement form

D.the AMS200 System Assurance Document

Answer: A

4. There exist Two Command Devices exist on an Hitachi TagmaStore AMS500. ShadowImage has been running for some time. For maintenance reasons, the AMS500 must be restarted. After restarting, only one Command Device is

still available.

How will the horcm instances behave in this situation?

- A.HORCM will be able to start with a warning message to the startup log.
- B.HORCM will not start unless the second Command Device is available again.
- C.HORCM will connect to Storage Navigator Modular and define a second Command Device.
- D.HORCM will start but go into a wait status until the second Command Device is back again.

Answer: A

5. An Hitachi storage system is connected to a SUN Solaris server. There is a parameter called "throttle" or "queue depth" to be set in the operating system.

If you want to optimize performance for the host I/O's, which value is used?

- A.operating system default value
- B.throttle or queue depth must be set to 1
- C.value is calculated from HDS user's guide rules
- D.the value is set according to the results of the initial SCSI inquiry

Answer: C

6. What is the purpose of the System Assurance Registration Documentation (SARD) process?

- A.To ensure accurate and complete record of pre-installation data.
- B.To guarantee that Hitachi Data Systems equipment is insured during transportation.
- C.To inform a channel partner that equipment is available for shipment.
- D.To validate configuration changes for customers with a premium service contract.

Answer: A

7. You connect the user LAN ports to an Ethernet switch while installing an Hitachi TagmaStore AMS500 and are unable to communicate although the link LED is illuminated. You are not sure if the user LAN IP addresses are correct.

How can you reset the IP addresses to known values?

- A.Connect using a null modem cable to the RS232 port and change the user LAN IP addresses.
- B.Press the reset button on the controller three times to reset the IP addresses to factory settings.
- C.Connect using a crossover cable to the maintenance LAN port on controller 0 and connect to 10.0.0.17 or 192.168.0.17.
- D.Connect using a crossover cable to the maintenance LAN port on controller 0 and connect to 10.0.0.16 or 192.168.0.16.

Answer: D

8. You have installed the Hitachi Copy-on-Write Snapshot software on an Hitachi TagmaStore AMS storage system running TrueCopy.

Which two steps need to be performed after you have enabled the Copy-on-Write SnapShot key? (Choose two.)

- A.Delete the TrueCopy paths.
- B.Suspend the TrueCopy pairs.
- C.Disable the TrueCopy license.
- D.Reboot the AMS storage system.

Answer: BD

9. You are adding an additional RKAJAT rack to an Hitachi TagmaStore AMS storage system containing RKAJ and RKAJAT racks.

Which tool is used to prepare the addition of the new RKAJAT?

- A.CCI
- B.ACE Tool
- C.WebTools
- D.HiCommand Device Manager

Answer: B

10. A customer wants to install an HBA Emulex LP10000 in a Windows 2003 server connected to an Hitachi TagmaStore AMS500.

Where would you check the validity of the implementation?

- A.Emulex Web site
- B.AMS maintenance manual
- C.HiFire on HDS intranet/extranet
- D.Storage Navigator Modular User's Guide

Answer: C

11. You want to manage an Hitachi TagmaStore AMS500 with Storage Navigator Modular (SNM), but you want to be sure that no one else has access to make changes at the same time.

What are two ways to do this? (Choose two.)

- A.Install SNM for Web on only one host and give access to this host for storage administrators.
- B.Install SNM Graphical User Interface on several hosts and install the Password Protection key.
- C.Install SNM Graphical User Interface on several hosts but connect to the AMS500 in maintenance mode.
- D.Install SNM Graphical User Interface on several hosts, and on the SNM restrict changes to the first logon user.

Answer: AB

12. HiCommand Device Manager can be used to link Universal Volume Manager to manage the Hitachi TagmaStore Universal Storage Platform (USP).

Which three steps must first be performed? (Choose three.)

- A.Specify an external volume in the external subsystem.
- B.Stop the Common Component and the Device Manager Server.
- C.Verify whether DAMP (for Web) runs on the Common Component.
- D.Use Device Manager to map and manage the internal and external subsystems.
- E.Specify an external subsystem port to be connected to the external port, which will be managed as a specific host for external volumes in the external subsystem.

Answer: ADE

13. Which topology setting should be used when connecting an Hitachi TagmaStore AMS storage system to a SAN switch?

- A.Loop
- B.Fabric
- C.Point-to-Point
- D.Fabric Point-to-Point

Answer: C

14. Hitachi Data Systems Sales and Services representatives are involved in preparing for the delivery of storage systems at a customer site.

Which three areas will these representatives be asked to look at when following the System Assurance Registration Documentation (SARD) process? (Choose three.)

- A.equipment delivery date
- B.customer contact details
- C.equipment configuration details
- D.equipment and feature availability
- E.site access details for equipment delivery

Answer: BCE

15. To which LAN should the Hitachi TagmaStore AMS200 controllers be attached?

- A.the user's intranet
- B.the AMS200 internal LAN
- C.the secure management LAN
- D.the Storage Navigator Modular

Answer: C
