

JK0-016 Practice Test

CompTIA CompTIA Network+(2009 Edition) Exam

JK0-016: CompTIA Network+(2009 Edition) Exam

Practice Exam: JK0-016 Exams

Exam Number/Code: JK0-016

Exam Name: CompTIA Network+(2009 Edition) Exam

Questions and Answers: 120 Q&As

(Network+)

Exam : [JK0-016](#)

For candidates making preparation for the CompTIA JK0-016 questions and answers, what they most desire is to easily pass the JK0-016 (CompTIA Network+(2009 Edition) Exam) exam. ItCertHome JK0-016 includes 120 questions and answers, which are collected and collated by experts of CompTIA. With our JK0-016 study materials, you can successfully take CompTIA certification of JK0-016 exam and go further on CompTIA career path.

Free JK0-016 Demo

we provide CompTIA JK0-016 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of JK0-016 exam

ItCertHome CompTIA Network+ JK0-016 Practice Questions is developed and finished by CompTIA technical team , cover every field of the exam . Besides, we have verified JK0-016 answers,almost 100% correct.

100% Guarantee to Pass JK0-016 Exam

We promise to give you FULL REFUND if you fail the Network+ JK0-016 certification(CompTIA Certified Network Associate) with the use of our ItCertHome testing engine.

JK0-016 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about JK0-016 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome JK0-016

Once there is some change on CompTIA JK0-016 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **CompTIA Network+ JK0-016** examination of original title complete coverage.ItCertHome **JK0-016 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of JK0-016 Q&A are more than 96%.All you need to study the whole JK0-016 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our JK0-016 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of JK0-016 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the JK0-016 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[CompTIA JK0-016](#) Test belongs to one of the Network+ certified test, if needs to obtain the Network+ certificate, you also need to participate in other related test, the details you may visit the Network+ certified topic, in there, you will see all related Network+ certified subject of examination.

JK0-016

ItCertHome professional provide Network+ JK0-016 the newest Q&A, completely covers JK0-016 test original topic. With our complete Network+ resources, you will minimize your Network+ cost and be ready to pass your JK0-016 tests on Your First Try, 100% Money Back Guarantee included!

This JK0-016 PDF demo do not include the questions and answers's picture:

Exam : CompTIA JK0-016

Title : CompTIA Network+(2009 Edition) Exam

1. A technician is asked to re-terminate a wall jack that has become loose. Upon looking at the wiring, the technician notices that it was originally wired as 568A. The company implemented a policy stating that all cable terminations should adhere to the 568B standard. With this in mind the technician should:

- A. run a new cable and terminate both ends to the 568B standard.
- B. re-terminate the loose end of the cable to the 568B standard.
- C. re-terminate both ends of the cable to the 568B standard.
- D. re-terminate the non-loose end of the cable to the 568B standard.

Answer: C

2. Convert the following binary string to its dotted decimal address: 11000000.10101000.01100011.00011010

- A. 192.168.99.26
- B. 192.168.101.26
- C. 192.168.101.34
- D. 192.168.99.34

Answer: A

3. All the workstations at a company have a static IP address. A newly deployed workstation is unable to connect to the company intranet server using an Internet browser. The technician can ping the intranet servers IP address. The MOST likely cause of this is an incorrect:

- A. VLAN.
- B. IP address on the new workstation.
- C. DNS server setting on the client.
- D. gateway setting on the client.

Answer: C

4. An administrator is using a packet analyzer across a single switch but is only receiving partial packet information. Which of the following would need to be implemented on the switch for the administrator?

- A. VLAN
- B. Port authentication
- C. Spanning tree
- D. Port mirroring

Answer: D

5. A user reports that when the phone rings in their house the wireless on their laptops becomes disconnected. Which of the following BEST describes the issue?

- A. The cordless phones are plugged into same outlet as the router
- B. The cordless phones are 5.8Ghz which interferes with wireless
- C. The cordless phones are 2.4Ghz which interferes with wireless
- D. The cordless phones are plugged into the RJ-11 jack

Answer: C

6. A technician wants to remotely log into an office computer using remote desktop. The technician needs to do this in a secure manner. Which of the following would accomplish this?

- A. VPN
- B. Tagged packets
- C. VLAN
- D. Telnet

Answer: A

7. A network with multiple devices needs to have a smaller broadcast domain while working with a small budget. Which of the following is the BEST solution?

- A. Assign static IPs.
- B. Implement more hubs.
- C. Implement more switches.
- D. Create VLANs.

Answer: D

8. Which of the following network protocols is needed to ensure that users can type in a FQDN instead of the IP address?

- A. DNS
- B. FTP
- C. WINS
- D. IMAP4

Answer: A

9. A 66 block is typically connected to the telecommunication company through which of the following types of cable?

- A. CAT6
- B. 25 pair
- C. Fiber optic
- D. 100 pair

Answer: B

10. Which of the following is correct when converting 192 to binary?

- A. 11000000
- B. 00110000
- C. 00001100
- D. 00000011

Answer: A

11. An IDS is used for which of the following purpose?

- A. Monitors inbound and outbound network connections in order to identify suspicious activity.
- B. Monitors inbound and outbound network connections in order to prevent suspicious activity.
- C. Controls inbound and outbound connections to prevent unauthorized access to the Internet.
- D. Controls inbound and outbound connections in a network device by command lines.

Answer: A

12. Everyday around lunch time there is network latency on the Windows proxy server 10.7. Which of the following network utilities can a technician run in order to determine the severity of the latency?

- A. arp -t 10.1.1.7
- B. tracert -t 10.1.1.7
- C. ping -t 10.1.1.7
- D. nbtstat -t 10.1.1.7

Answer: C

13. A 100 pair cable is typically used to connect:

- A. telephony distribution.
- B. businesses with more than 75 computers.
- C. security cameras.
- D. computer labs with more than 20 computers.

Answer: A

14. The optimal transmission speed for a CAT5 network cable in a main distribution frame (MDF) is:

- A. 1Mbps.
- B. 10Mbps.
- C. 100Mbps.
- D. 1000Mbps.

Answer: C

15. An active/passive server cluster in which only one server is active and handling requests, is an example of which of the following network performance optimization?

- A. QoS
- B. Load balancing
- C. Traffic shaping
- D. High availability

Answer: D

16. A DHCP enabled computer on the network has been unplugged from the network for a week. In the mean time, several other computers were added to the network. When plugging the computer back into the network the computer is unable to reach network resources. Which of the following is the MOST likely cause?

- A. The DHCP scope needs to be redefined.
- B. The DHCP pool limit has been reached.
- C. The IP address lease has expired on the DHCP server.
- D. The DHCP server needs to be restarted.

Answer: B

17. While reviewing a firewall policy, a network administrator notices a large block of addresses are denied without comment. Given that the blocked address range is from 224.0.0.0 to 239.255.255.255, which of the following group of addresses does this specify?

- A. Asia-pacific addresses
- B. RFC1918 private addresses
- C. Multicast addresses
- D. Unused private addresses

Answer: C

18. Which of the following networks has the LEAST likelihood of collisions?

- A. Mesh
- B. Ring
- C. Star
- D. Bus

Answer: B

19. Which of the following network protocols allows for automated alerts and reports on network devices?

- A. SNMP
- B. IGMP
- C. SMTP
- D. TLS

Answer: A

20. Ensuring that data is transmitted securely over an IP network is the main purpose of:

- A. Telnet.
- B. FTP.
- C. SIP.
- D. TLS.

Answer: D

21. Which of the following software types would BEST be used at identifying and reacting to an attack by shutting down a port or dropping certain types of packets?

- A. IDS
- B. Packet sniffer
- C. IPS
- D. Port scanner

Answer: C

22. After a technician came out and installed a new wireless router, one of the wired workstations began having problems connecting to the file server. This is only an intermittent problem. Which of the following actions will the technician MOST likely perform to resolve this problem?

- A. Change the router's SSID.
- B. Move the router's location.
- C. Check user permissions.
- D. Check the cable ends.

Answer: D

23. A network device that is used to connect multiple devices without segmenting a network is a:

- A. hub.
- B. router.
- C. switch.
- D. bridge.

Answer: A

24. Which of the following ipconfig switches will display when the lease was obtained?

- A. /displaydns
- B. /renew
- C. /all
- D. /release

Answer: C

25. The 66 block termination point is:

- A. IEEE 1394 compliant.
- B. CAT6 compliant.
- C. coaxial compliant.
- D. CAT3 compliant.

Answer: D

26. Which of the following protocols is used to access files on a remote server?

- A. FTP
- B. NTP
- C. SIP
- D. ARP

Answer: A

27. Which of the following BEST explains the purpose of a DMZ?

- A. To create a security zone that allows public traffic but is isolated from the private network.
- B. To separate a security zone for a VPN.
- C. To create a security zone that allows private traffic but is isolated from the public network.
- D. To separate a security zone for an IPS.

Answer: A

28. Which of the following features of a switch will allow two switches to pass network information?

- A. Trunking
- B. Disabling the routing protocols
- C. Port speeds
- D. PoE

Answer: A

29. Which of the following network services is responsible for mapping names to IP addresses?

- A. DHCP
- B. DNS
- C. IMAP4
- D. Telnet

Answer: B

30. 100Base-TF uses which of the following types of cabled medium?

- A. Ethernet implementation over fiber
- B. Ethernet implementation over coaxial
- C. Ethernet implementation over ThickNet
- D. Ethernet implementation over ThinNet

Answer: A
