### **Juniper Networks Certified Internet Associate (JNCIA-SSL) 562 Exam**

**JN0-562: Certified Internet Associate (JNCIA-SSL) 562 Exam**

**Practice Exam:** JN0-562 Exams

**Exam Number/Code:** JN0-562

**Exam Name:** Certified Internet Associate (JNCIA-SSL) 562 Exam

**Questions and Answers:** 120 Q&As

**( JNCIA )**

Exam : [JN0-562](#)

For candidates making preparation for the Juniper Networks JN0-562 questions and answers, what they most desire is to easily pass the JN0-562 (Certified Internet Associate (JNCIA-SSL) 562 Exam) exam. ItCertHome JN0-562 includes 120 questions and answers, which are collected and collated by experts of Juniper Networks. With our JN0-562 study materials, you can successfully take Juniper Networks certification of JN0-562 exam and go further on Juniper Networks career path.

#### **Free JN0-562 Demo**

we provide Juniper Networks JN0-562 demo exam for free (in PDF format ) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

#### **ItCertHome Test tool's advantages:**

##### **High Quality and Value of JN0-562 exam**

ItCertHome Juniper Networks JNCIA JN0-562 Practice Questions is developed and finished by Juniper Networks technical team , cover every field of the exam . Besides, we have verified JN0-562 answers,almost 100% correct.

##### **100% Guarantee to Pass JN0-562 Exam**

We promise to give you FULL REFUND if you fail the JNCIA JN0-562 certification(Juniper Networks Certified Network Associate) with the use of our ItCertHome testing engine.

##### **JN0-562 Self Test Mode**

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about JN0-562 to ensure enough assurance in real testing center.

##### **Periodic Updates of ItCertHome JN0-562**

Once there is some change on Juniper Networks JN0-562 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

##### **Professional and Efficient Service**

We offer 7\*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Juniper Networks JNCIA JN0-562** examination of original title complete coverage.ItCertHome **JN0-562 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

### **We promised that use ItCertHome Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of JN0-562 Q&A are more than 96%.All you need to study the whole JN0-562 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our JN0-562 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of JN0-562 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the JN0-562 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[Juniper Networks JN0-562](#) Test belongs to one of the JNCIA certified test, if needs to obtain the JNCIA certificate, you also need to participate in other related test, the details you may visit the JNCIA certified topic, in there, you will see all related JNCIA certified subject of examination.

JN0-562

ItCertHome professional provide JNCIA JN0-562 the newest Q&A, completely covers JN0-562 test original topic. With our complete JNCIA resources, you will minimize your JNCIA cost and be ready to pass your JN0-562 tests on Your First Try, 100% Money Back Guarantee included!

This JN0-562 PDF demo do not include the questions and answers's picture:

Exam : Juniper JN0-562

Title : Certified Internet Associate (JNCIA-SSL) 562 Exam

1. What does a sign-in policy map users to when browsing a specified URL?

- A. A list of possible user roles.
- B. Specific resources as stated in resource policies.
- C. The URL presents one or more authentication realms to the user for authentication.
- D. The login is passed to an authentication server for verification, and an authorization server for user attribute information.

Answer: C

2. Where is the IVE typically deployed in the network?

- A. behind the Internet firewall
- B. internally with all clients directly cabled to the IVE
- C. both interfaces on the outside of the Internet firewall
- D. parallel to the Internet firewall with one interface on the outside and one on the inside

Answer: A

3. What are two reasons for using Network Connect? (Choose two.)

- A. When the ability to disable split tunneling is required.
- B. When the client will need to redirect traffic based on process name.
- C. When the client will use applications with server-initiated connections.
- D. When the client will not have administrator privileges on their machines.

Answer: AC

4. When using the J-SAM, where on a client machine would you look to verify that the loopback addresses are assigned correctly?

- A. HOSTS file
- B. ARP cache
- C. LMHOSTS file

D. local route table

Answer: A

5. You are using RADIUS as your authorization server. Other than username, which two attributes are available for creating role mapping rules? (Choose two.)

A. Certificate

B. User Attribute

C. RSA Attributes

D. Group Membership

Answer: AB

6. What is Cache Cleaner used for?

A. to prevent users from signing in from insecure machines

B. to remove content downloaded during the IVE session

C. to remove Web content cached by the IVE on behalf of the user

D. to determine which files should be cached between remote access sessions

Answer: B

7. Which role-based session option would an administrator configure to allow a user to connect from different source IP addresses within the same user session?

A. roaming session

B. persistent session

C. persistent password caching

D. browser request follow-through

Answer: A

8. Which statement accurately describes Resource Profiles?

A. Resource Profiles are a collection of resources and ACLs.

B. Resource Profiles are where ACLs are setup for resources.

C. Resource Profiles are a collection of resources and their descriptions.

D. Resource Profiles are where the resource, role, and ACL are in one location.

Answer: D

9. You want to configure Network Connect to allow users to connect through a tunnel, connect to hosts on the same subnet as their local adapter, and shut down any attempt to extend the network boundaries. How do you proceed?

A. Enable split tunneling.

B. Disable split tunneling.

C. Enable split tunneling with route change monitor.

D. Allow access to local subnet with route change monitor.

Answer: D

10. Which two statements about SSL VPNs are true? (Choose two.)

A. SSL VPNs provide better security than IPSEC.

B. SSL VPNs provide a dedicated, point to point connection.

C. SSL VPNs provide high performance for individual connections.

D. SSL VPNs use well-known technologies for secure individual connections.

Answer: CD

11. What is the minimum information that must be configured by an administrator to create a resource policy? (Choose two.)

A. resource

B. username

C. policy name

D. session timeout

Answer: AC

12. Which resource example should you use to define resource access to a UNIX file share?

A. server/user

B. \servershare

C. tcp://host:443

D. tcp://host:137/users

Answer: A

13. What are two benefits of using SSL? (Choose two.)

A. SSL is supported in all Web browsers.

B. SSL usually requires no client-side configuration.

C. The SSL client is smaller than most IPSec clients, with half the options to configure than that of an IPSec client.

D. SSL outperforms IPSec on every level because it operates at the network layer rather than the application layer.

Answer: AB

14. Resource Profiles support creating policies for which two technologies? (Choose two.)

A. secure meeting

B. network connect

C. terminal services

D. Web applications

Answer: CD

15. Which User Role session option provides you with the capability to cache basic authentication information so users are not challenged repeatedly for the same credentials?

A. roaming session

B. persistent session

C. persistent password caching

D. browser request follow-through

Answer: C

16. What are two possible reasons for W-SAM not starting on the client? (Choose two.)

A. Java is disabled in the Sign-in policy.

B. ActiveX autoinstall is disabled in the role.

C. A popup blocker is installed on the client machine.

D. The user does not have administrator privileges on the machine.

Answer: CD

17. You create a set of role mapping rules. You select "Merge settings for all assigned roles." The second role mapping rule has the "Stop processing rules when this rule matches" option selected. A user logs in that matches the first three rules. What happens?

A. This is not a valid combination. The system displays an error message and does not update the configuration.

B. The merge settings override the stop processing option. The user matches all three roles and merging follows the standard merging criteria.

C. The Stop rule prevents any more rule matching after checking the second rule. The merge option only merges the roles of the first two rules following the IVE's built-in permissive merging rules.

D. The Stop rule prevents any more rule matching after checking the second rule. The user now just matches the second rule. The merge option is overridden and the user is given only the privileges defined by the second role.

Answer: C

18. Which three authentication servers are included with a baseline license? (Choose three.)

A. NIS

- B. ACE
  - C. SAML
  - D. LDAP
  - E. SiteMinder
- Answer: ABD

19. Which two Terminal Services clients can be delivered automatically from the IVE to users? (Choose two.)

- A. Citrix ICA
- B. Tera Term
- C. SecureCRT
- D. Windows Terminal Service

Answer: AD

20. Which two Web Resource Policy features provide you with the capability to configure the IVE to work with corporate Proxy Servers? (Choose two.)

- A. Web Proxy Policies
- B. Web Proxy Servers
- C. Web Cache Policies
- D. Web Passthrough Proxy

Answer: AB
