

N10-004 Practice Test

CompTIA CompTIA Network+ (2009 Edition)

N10-004: CompTIA Network+ (2009 Edition)

Practice Exam: N10-004 Exams

Exam Number/Code: N10-004

Exam Name: CompTIA Network+ (2009 Edition)

Questions and Answers: 589 Q&As
(Network+)

Exam : [N10-004](#)

For candidates making preparation for the CompTIA N10-004 questions and answers, what they most desire is to easily pass the N10-004 (CompTIA Network+ (2009 Edition)) exam. ItCertHome N10-004 includes 589 questions and answers, which are collected and collated by experts of CompTIA. With our N10-004 study materials, you can successfully take CompTIA certification of N10-004 exam and go further on CompTIA career path.

Free N10-004 Demo

we provide CompTIA N10-004 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of N10-004 exam

ItCertHome CompTIA Network+ N10-004 Practice Questions is developed and finished by CompTIA technical team , cover every field of the exam . Besides, we have verified N10-004 answers,almost 100% correct.

100% Guarantee to Pass N10-004 Exam

We promise to give you FULL REFUND if you fail the Network+ N10-004 certification(CompTIA Certified Network Associate) with the use of our ItCertHome testing engine.

N10-004 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about N10-004 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome N10-004

Once there is some change on CompTIA N10-004 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **CompTIA Network+ N10-004** examination of original title complete coverage.ItCertHome **N10-004 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of N10-004 Q&A are more than 96%.All you need to study the whole N10-004 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our N10-004 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of N10-004 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the N10-004 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[CompTIA N10-004](#) Test belongs to one of the Network+ certified test, if needs to obtain the Network+ certificate, you also need to participate in other related test, the details you may visit the Network+ certified topic, in there, you will see all related Network+ certified subject of examination.

N10-004

ItCertHome professional provide Network+ N10-004 the newest Q&A, completely covers N10-004 test original topic. With our complete Network+ resources, you will minimize your Network+ cost and be ready to pass your N10-004 tests on Your First Try, 100% Money Back Guarantee included!

This N10-004 PDF demo do not include the questions and answers's picture:

Exam : CompTIA N10-004

Title : CompTIA Network+

(2009 Edition)

1. Click on the exhibit button. Which of the following graphic is a star network topology?

- A. Graphic A
- B. Graphic B
- C. Graphic C
- D. Graphic D

Answer: C

2. Click on the exhibit button. Which of the following combined makes a crossover cable?

- A. 2 and 3
- B. 2 and 4
- C. 1 and 3
- D. 1 and 4

Answer: B

3. Click on the Exhibit button. In the diagram, which of the following would be the MOST effective location for a firewall?

- A. Between switch A and switch B
- B. Between the DHCP and switch A
- C. Between server 1 and switch A
- D. Between the modem and the router

Answer: D

4. Click on the Exhibit button. In the diagram, which of the following would be a single point of failure with the highest impact to systems?

- A. Connection between switch A and switch B failing
- B. Connection between the router and switch A failing

C. Switch A failing

D. Router failing

Answer: C

5. Click on the exhibit button. Which of the following is the 568A connection standard?

A. One

B. Two

C. Three

D. Four

Answer: B

6. Click on the Exhibit button. According to the diagram, server 3 is hosting DHCP. PC1 fails to get an address, but PC2 can. Which of the following components of the network has MOST likely failed?

A. Cable 5

B. Switch A

C. Cable 4

D. Switch B

Answer: A

7. Click on the Exhibit button. According to the diagram, which of the following is the correct path for PC1 to request an IP address?

A. Switch B to switch A to switch C

B. Switch B to switch C

C. Switch B to switch A to router

D. Switch B to switch A

Answer: D

8. Which of the following ports is commonly used to remotely administer a router?

A. 23

B. 25

C. 53

D. 161

Answer: A

9. Click on the Exhibit button. According to the diagram, which of the following is the correct path for PC7 to print a document?

A. Switch C to switch A

B. Switch C to switch A to switch B

C. Switch C to switch A to the router

D. Switch B to the router

Answer: A

10. Click on the Exhibit button. In the environment represented by the diagram, PC1 is unable to ping server 2, or PC7. Which of the following would MOST likely cause the issues?

A. The cable between PC7 and switch A has failed.

B. Switch C has failed.

C. The cable between the server and switch A has failed.

D. Switch A has failed.

Answer: D

11. Click on the Exhibit button. A company is hardening its network security and has asked its network administrator to implement an IDS. Which of the following locations on the diagram should the IDS be between?

A. The router and switch A

- B. The modem and the router
- C. Switch A and switch B
- D. The outside network and the modem

Answer: A

12. Click on the exhibit button. Which of the following graphic is a bus network topology?

- A. Graphic A
- B. Graphic B
- C. Graphic C
- D. Graphic D

Answer: A

13. Which of the following is resistant to crosstalk?

- A. 1000Base-T
- B. 10GBase-CX
- C. 100Base-FX
- D. STP

Answer: C

14. UDP operates at which layer of the OSI model?

- A. Session layer
- B. Application layer
- C. Transport layer
- D. Physical layer

Answer: C

15. Which of the following protocols would a multilayer switch use to learn the IP address of a directly connected device?

- A. ARP
- B. BOOTP
- C. DHCP
- D. DNS

Answer: A

16. Click on the Exhibit button. In the environment represented by the diagram, PC1, PC2, PC3, and PC4 are unable to print to the network printer. PC5 is able to print properly. Which of the following would cause this problem?

- A. The cable between switch B and A is faulty.
- B. The cable between switch A and the printer is faulty.
- C. The DHCP has not assigned a working IP address to the printer.
- D. Power to switch A has failed.

Answer: A

They are to be placed physically next to the existing network printer. The technician needs to install a new switch to connect these printers because all ports are taken on the network. Which of the following locations on the network would be the BEST place for the additional switch to be placed?

- A. Between the DHCP and switch A
- B. Between the existing printer and switch A
- C. Between switch A and switch B
- D. Between switch A and switch C

Answer: B

18. Data encryption and decryption occurs at which layer of the OSI model?

- A. Transport
- B. Presentation
- C. Session
- D. Application

Answer: B

19. Click on the exhibit button. Which of the following is the 568B connection standard?

- A. One
- B. Two
- C. Three
- D. Four

Answer: D

20. Click on the exhibit button. Which of the following graphic offers the highest availability network?

- A. Graphic A
- B. Graphic B
- C. Graphic C
- D. Graphic D

Answer: D
