

## **NS0-510 Practice Test**

### **Network Appliance NCIE - Backup & Recovery Implementation Engineer Exam**

**NS0-510: NCIE - Backup & Recovery Implementation Engineer Exam**

**Practice Exam:** NS0-510 Exams

**Exam Number/Code:** NS0-510

**Exam Name:** NCIE - Backup & Recovery Implementation Engineer Exam

**Questions and Answers:** 102 Q&As

**( NCIE )**

Exam : [NS0-510](#)

For candidates making preparation for the Network Appliance NS0-510 questions and answers, what they most desire is to easily pass the NS0-510 (NCIE - Backup & Recovery Implementation Engineer Exam) exam. ItCertHome NS0-510 includes 102 questions and answers, which are collected and collated by experts of Network Appliance. With our NS0-510 study materials, you can successfully take Network Appliance certification of NS0-510 exam and go further on Network Appliance career path.

#### **Free NS0-510 Demo**

we provide Network Appliance NS0-510 demo exam for free (in PDF format ) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

#### **ItCertHome Test tool's advantages:**

##### **High Quality and Value of NS0-510 exam**

ItCertHome Network Appliance NCIE NS0-510 Practice Questions is developed and finished by Network Appliance technical team , cover every field of the exam . Besides, we have verified NS0-510 answers,almost 100% correct.

##### **100% Guarantee to Pass NS0-510 Exam**

We promise to give you FULL REFUND if you fail the NCIE NS0-510 certification(Network Appliance Certified Network Associate) with the use of our ItCertHome testing engine.

##### **NS0-510 Self Test Mode**

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about NS0-510 to ensure enough assurance in real testing center.

##### **Periodic Updates of ItCertHome NS0-510**

Once there is some change on Network Appliance NS0-510 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

##### **Professional and Efficient Service**

We offer 7\*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Network Appliance NCIE NS0-510** examination of original title complete coverage.ItCertHome **NS0-510 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

#### **We promised that use ItCertHome Q&A ensure you pass the exam at your first try.**

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of NS0-510 Q&A are more than 96%.All you need to study the whole NS0-510 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the

certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our NS0-510 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of NS0-510 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the NS0-510 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

**Network Appliance NS0-510** Test belongs to one of the NCIE certified test, if needs to obtain the NCIE certificate, you also need to participate in other related test, the details you may visit the NCIE certified topic, in there, you will see all related NCIE certified subject of examination.

NS0-510

ItCertHome professional provide NCIE NS0-510 the newest Q&A, completely covers NS0-510 test original topic. With our complete NCIE resources, you will minimize your NCIE cost and be ready to pass your NS0-510 tests on Your First Try, 100% Money Back Guarantee included!

This NS0-510 PDF demo do not include the questions and answers's picture:

Exam : Network Appliance NS0-510

Title : NCIE-Backup & Recovery Implementation Engineer Exam

1. Which NetApp backup and recovery solution is best for backing up remote office heterogeneous data storage?

- A. Snapshot copies
- B. SnapManager
- C. SnapVault
- D. Open System SnapVault

Answer: D

2. What are two applications that can manage Open Systems SnapVault-based backup environments via NDMP?  
(Choose two.)

- A. NetApp Protection Manager
- B. Legato Networker
- C. Symantec NetBackup
- D. Syncsort Backup Express

Answer: AD

3. SnapVault supports a multi-vendor storage infrastructure environment.

- A. True
- B. False

Answer: B

4. Tape backups are widely used because they are considered the most secure form of media backup.

- A. True
- B. False

Answer: B

5. The NearStore VTL provides a masking function to control Host access to virtual devices.

- A. True
- B. False

Answer: A

6. What are three NetApp backup and recovery solutions based on Snapshot technology? (Choose three.)

- A. SnapVault
- B. OSSV
- C. VTL
- D. SnapManager products

Answer: ABD

7. Which two events occur when a volume with qtrees is backed up using SnapVault from Primary to Secondary? (Choose two.)

- A. Qtrees in Primary are stored as qtrees on Secondary.
- B. Qtrees in Primary are stored as directories on Secondary.
- C. Restores of original volume from Secondary to Primary are done as a qtree.
- D. Restores of original volume from Secondary to Primary are done as a volume.

Answer: BC

8. In which two situations is Snapshot the preferred strategy for backup and recovery? (Choose two.)

- A. when file systems or raw partitions consist of a single LUN
- B. when file systems span multiple LUNs via Volume Manager Enterprise or a similar product
- C. when selective restoration of files within the LUN is a requirement
- D. when offloading the majority of backup overhead from the host system is a requirement

Answer: AD

9. What are three components of an Open Systems SnapVault (OSSV) installation? (Choose three.)

- A. Primary System
- B. Secondary System
- C. OSSV agent installed on the primary system
- D. OSSV agent installed on the secondary system
- E. NetApp primary system

Answer: ABC

10. SnapVault allows data to be \_\_\_\_\_.

- A. centralized for enterprise-wide data management and allows backup applications to control native backup and recovery facilities in NetApp storage systems
- B. recovered from a corrupted database, application, or damaged file system in less than a minute, regardless of the size of the volume being restored
- C. backed up via Snapshot and transferred on a scheduled basis to a destination NearStore appliance
- D. virtualized and tightly integrated with Microsoft NTFS, providing a layer of abstraction between application data and its physical storage

Answer: C

11. Without the nearstore\_option license installed, what are the total concurrent SnapVault transfer streams for the FAS3020/3050?

- A. 16 for FC drives and 8 for SATA drives
- B. 8 for FC drives and 16 for SATA drives
- C. 32 for FC drives and 16 for SATA drives
- D. 16 for FC drives and 32 for SATA drives

Answer: A

12. The SnapVault Secondary is configured for user access of qtrees via NAS. How do you restore a file?

- A. by using SnapRestore
- B. by using the SnapVault GUI
- C. by users with sufficient privileges
- D. by only storage administrators with sufficient privileges

Answer: C

13. What is RTO?

- A. the amount of time that an organization will NOT have access to lost data while the data is being recovered
- B. the amount of time that an organization will take to recover their data
- C. the time-out period for remote device access
- D. the recorded time of the data outage

Answer: A

14. Which two technologies serve as the basis for SnapVault-based backups? (Choose two.)

- A. QSM
- B. VSM
- C. SyncMirror
- D. Snapshot

Answer: AD

15. SnapVault is a disk-based backup solution that \_\_\_\_\_. (Choose three.)

- A. enables backup of heterogeneous primary storage systems to a NetApp secondary storage system
- B. enables restoration of data from a SnapVault secondary storage system, with minimum downtime and better reliability than tape-based backup and restore
- C. requires both NetApp primary and secondary storage systems
- D. enables data stored on multiple NetApp storage systems to be backed up to a central secondary system as read-only Snapshot copies

Answer: BCD

16. A-SIS optimization can be configured at \_\_\_\_\_.

- A. the volume level only
- B. the aggregate level only
- C. both the aggregate and volume levels
- D. the qtree level

Answer: A

17. Which two NetApp products support heterogeneous storage environments? (Choose two.)

- A. NearStore VTL
- B. SnapVault
- C. OSSV
- D. StoreVault

Answer: AC

18. When a SnapVault Secondary requests an incremental backup from the primary, the SnapVault Primary creates a new snapshot and compares it to the most recent ONTAP-scheduled snapshot in order to identify the changed data blocks.

- A. True
- B. False

Answer: B

19. What is the maximum number of concurrent A-SIS sessions on a NetApp controller?

- A. 2
- B. 4

- C. 8
- D. 16

Answer: C

20. From which three platforms does Open Systems SnapVault support backup and restore? (Choose three.)

- A. IBM AIX
- B. SunOS
- C. HP HP-UX
- D. Linux
- E. Windows NT, Windows 2000, and Windows Server 2003
- F. SGI IRIX

Answer: ACD
