OMG omg-certified uml professional fundamental exam

um0-100: omg-certified uml professional fundamental exam

Practice Exam: um0-100 Exams

Exam Number/Code: um0-100

Exam Name: omg-certified uml professional fundamental exam

Questions and Answers: 168 Q&As

(OMG Certification)

Exam : [um0-100](#)

For candidates making preparation for the OMG um0-100 questions and answers, what they most desire is to easily pass the um0-100 (omg-certified uml professional fundamental exam) exam. ItCertHome um0-100 includes 168 questions and answers, which are collected and collated by experts of OMG. With our um0-100 study materials, you can successfully take OMG certification of um0-100 exam and go further on OMG career path.

Free um0-100 Demo

we provide OMG um0-100 demo exam for free (in PDF format) before you decide to purchase it. Thus,you can know better about the quality of our practice exam and then make your right decision.

ItCertHome Test tool's advantages:

High Quality and Value of um0-100 exam

ItCertHome OMG OMG Certification um0-100 Practice Questions is developed and finished by OMG technical team , cover every field of the exam . Besides, we have verified um0-100 answers,almost 100% correct.

100% Guarantee to Pass um0-100 Exam

We promise to give you FULL REFUND if you fail the OMG Certification um0-100 certification(OMG Certified Network Associate) with the use of our ItCertHome testing engine.

um0-100 Self Test Mode

ItCertHome provides a simulated and interactive environment where you can test your knowledge and skills about um0-100 to ensure enough assurance in real testing center.

Periodic Updates of ItCertHome um0-100

Once there is some change on OMG um0-100 exam, we will update it timely, and the product you buy will be updated within 90 days for free.

Professional and Efficient Service

We offer 7*24 customer support via diverse channels: LIVE CHAT,MAIL.Expecting the communication with you about IT certification.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **OMG OMG Certification um0-100** examination of original title complete coverage.ItCertHome **um0-100 Braindumps** Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

We promised that use ItCertHome Q&A ensure you pass the exam at your first try.

1. The Q&A are from cooperation exam center of the real original title,summaried by our professional team and collated by senior IT lectured in co-training center to make sure the professional quality of the Q&A.The correctly of the Q&A is 100%, the coverage of um0-100 Q&A are more than 96%.All you need to study the whole um0-100 Q&A before you participate the certification exam,it should be possible to easily complete the exam and pass the certification.

2. ItCertHome to all the Q&A, we promised "do not pass the exam give you a full refund". If you buy our um0-100 Q&A and did not pass the exam at the first try. You can take the examination report card that stamped with PROMETRIC or VUE test centers Seal. we will refund your full cost of um0-100 Q&A, absolutely guarantee you interests have no losses.(For a full refund details)

3. ItCertHome professional IT Q&A vendors, we provide well after-sale service. To all the customers buy the Q&A, we provide track service. when you buy the Q&A with in one year. you can enjoy the upgrade Q&A service for free. If in this period, the certified test center change the um0-100 Q&A, we will update the Q&A in the first time, and provide you the download update for free.

[OMG um0-100](#) Test belongs to one of the OMG Certification certified test, if needs to obtain the OMG Certification certificate, you also need to participate in other related test, the details you may visit the OMG Certification certified topic, in there, you will see all related OMG Certification certified subject of examination.

um0-100

ItCertHome professional provide OMG Certification um0-100 the newest Q&A, completely covers um0-100 test original topic. With our complete OMG Certification resources, you will minimize your OMG Certification cost and be ready to pass your um0-100 tests on Your First Try, 100% Money Back Guarantee included!

This um0-100 PDF demo do not include the questions and answers's picture:

Exam : OMG UM0-100

Title : OMG-Certified UML Professional Fundamental Exam

1. What is the meaning of the subsets constraint in the diagram?

- A. D is a subclass of B.
- B. D contains a subset of instances of C.
- C. The collection of b is a subset of the collection of d for each A.
- D. The collection of d is a subset of the collection of b for each C.
- E. The collection of c is a subset of the collection of b for each D.

Answer: D

2. What does it mean when a classifier rectangle is labeled as an <<enumeration>>?

- A. The list of all public and private features is provided.
- B. The classifier is an iterator for traversing a collection.
- C. The list of all public and private structural features is suppressed.
- D. The classifier is a data type whose values are possibly listed in the bottom compartment.

Answer: D

3. What is true of the black diamond on the diagram? (Choose two)

- A. A Line Item cannot be removed from its Order.
- B. A Line Item may only be included in one Order at a time.
- C. If an Order is deleted, its Line Item instances normally still remain.
- D. If an Order is deleted, its Line Item instances are normally deleted.
- E. A Line Item may only be included in more than one Order at a time.

Answer: BD

4. What statements are true of the <<permit>> dependency in the exhibit? (Choose two)

- A. X can access only the baz property of W.
- B. X can access the baz and quux properties of W.
- C. X can access only the quux property of W.

- D. W can access only the foo property of X
- E. W can access the foo and bar properties of X
- F. W can access only the bar property of X

Answer: BF

5. What is an expression in UML 2.0?

- A. comment placed on a diagram
- B. symbol or symbols signifying a set of value
- C. graphical addition to a diagramming element
- D. language-specific string used to describe the meaning of a diagram
- E. language-specific text string used to describe the contents of a diagram

Answer: B

6. What is true of the import example in the exhibit?

- A. Webshop is imported into ShoppingCart and then further imported into Auxiliary and Types.
- B. Auxiliary and Types are imported into ShoppingCart, but neither can be further imported into WebShop.
- C. Public members of WebShop are imported into ShoppingCart and then further imported into Auxiliary or Types.
- D. Public members of Types and Auxiliary are imported into ShoppingCart and then further imported into WebShop.
- E. Public members of Types and Auxiliary are imported into ShoppingCart and those from Types are further imported into WebShop.

Answer: E

7. What does an {ordered} designator do for a multiplicity?

- A. specifies that values are sequentially ordered
- B. specifies an inclusive interval of non-negative integers
- C. indicates the correct sequence of messages in a sequence diagram
- D. indicates that the upper bound must be greater than the lower bound for the multiplicity

Answer: A

8. What is true about a comment in UML 2.0? (Choose two)

- A. is shown as a note symbol
- B. must be attached to at most one element
- C. contains only machine-readable symbols
- D. can be attached to more than one element
- E. connections are always shown with a dashed line

Answer: AD

9. What is a relationship in UML 0?

- A. the state of being related
- B. an element that has no derived union
- C. an element that has no derived composition
- D. an element that must have two owned elements
- E. an element that specifies a connection between elements

Answer: E

10. What does a <<use>> dependency mean in a relationship between one element and another?

- A. specifies how it uses another element
- B. specifies how it realizes another element
- C. specifies how one element implements another element
- D. requires another element for its full implementation or operation

Answer: D

11. The instance diagram in the exhibit contains father and son without underlines. What is the meaning of this?

- A. The Don class is a superclass of the Josh class.
- B. An association having end names father and son.
- C. The diagram is a mixture of class and instance diagrams.
- D. A link of an association having end names father and son.
- E. The names are incorrectly specified, because underlined names are required.

Answer: D

12. Constraints are shown using what symbols?

- A. []
- B. ()
- C. { }
- D. ?"
- E. " "

Answer: C

13. What is an element in UML 2.0?

- A. member of a set
- B. instance of a class
- C. constituent of a model
- D. abstract metaclass with only one superclass
- E. substance not separable by ordinary chemical means

Answer: C

14. What does an association specify?

- A. tuples that are not links
- B. relationship among models
- C. links between associated types
- D. links between instances of associated types
- E. links between instances of untyped classes

Answer: D

15. What are some of the important semantics of packages? (Choose three)

- A. A class may be owned by multiple packages.
- B. An element may be owned by at most one package.
- C. The public contents of a package are accessible outside the package.
- D. The public contents of a package are not accessible outside the package.
- E. If a package is removed from a model, the owned contents are removed.
- F. If a package is removed from a model, the owned contents are reassigned.

Answer: BCE

16. What does the arrow end of a dependency relationship indicate?

- A. more general classifier
- B. element initiates communication
- C. whole in a whole-part relationship
- D. client element is affected by a change in the supplier element
- E. supplier element is unaffected by a change in the client element

Answer: E

17. In the exhibit, what is the meaning of size in these two diagrams?

- A. Only one or the other should be used, not both, in order to avoid a name conflict.
- B. The size end name on the association indicates data storage and the attribute does not.
- C. There is one size property diagrammed both as an attribute and as an association end.
- D. There are two size properties that have no name conflict as long as each size is private.

E. The size attribute in the class indicates that it will be stored within the class and the end name does not.

Answer: C

18. What is true about every named element that is a member of a namespace?

- A. It is owned by the namespace.
- B. It has one unique name within the namespace.
- C. It is identified by its name within the namespace.
- D. It can be distinguished from other members in the namespace.

Answer: D

19. What are the association end names in the exhibit?

- A. Person and Order
- B. customer and Order
- C. 1 and *
- D. 1, *, customer, and Order
- E. 1, *, customer, order, Person, and Order

Answer: B

20. A property is a feature that can be represented in what ways? (Choose two)

- A. as an association
- B. as an association end
- C. as an attribute in a class
- D. as an operation in a class
- E. as an indication of whether the feature is public or private

Answer: BC
